for the TRIO CONTRASTE

eva-maria houben: goldberg

*soloist: playing the melody, in a softly swinging motion - like a wide and calm breathing.
any register for the melody.*

*the other players: perhaps more listening than playing.
sometimes, rather seldom, echoing and/or anticipating the soloist's sounds with single sounds of
the melody - caressing, supporting, enveloping the s o l o i s t ' s s o u n d s .*

the ensemble repeats the melody ad libitum, the soloist changing with each repetition.
